

TITAN INCLINE

Smooth ride from start to finish

SPACE SAVING, EASY ACCESS.

The AMERIGLIDE Titan inclined platform lift offers a smooth and stable ride due to its unique stair mounted C-shaped rail system design. This platform fits most single flight straight staircases and can easily be folded up, allowing easy access to the stairs when not in use.

Suitable for home or commercial applications, this inclined platform lift is perfect for various types of environments where a traditional elevator or vertical platform is not adequate. Additionally, the TITAN does not require a mechanical room, as the motor is housed in the sleek and slim upper landing column.

For decades, AmeriGlide has installed thousands of inclined platform lifts in public buildings and private residences all over the world. We have been manufacturing and servicing custom manufactured in North-America since 1991.

EASY INSTALLATION

With our qualified technicians, your TITAN platform lift can be installed quickly and safely.

SPACE SAVER

Ramp and guard rails fold and lock in place during operations and release at landings for easy boarding and exiting.

PEACE OF MIND

The TITAN meets CSA-B613 B355-15, ASME 17.1, ASME 18.1 giving you the peace of mind!

Unobstrusive designs for easy access
